

THE RIDGE

SENIOR LIVING

January 8, 2021

Dear Team Members and Family Members,

We are well underway for the installation of the Needlepoint Bi Polarization system in all our communities. Cottonwood was completed on 1/4/21. Pinehurst began on 1/4/21 and Foothill on 1/6/21. We anticipate everything to be completed by the end of the month.

We have had interest from some staff and family members on purchasing units for their homes. We can provide a limited number of these due to the oversupply we have for a future building under construction. These units will be sold to you at our cost. If we find that many people are interested, we will work with the supplier to do larger orders and possible drop shipments to individuals. Please know that The Ridge Senior Living is not a reseller of this product or responsible for installation. We will close the orders on 1/29/2021. Each unit will cover approximately 4,000 sqf.

If you are interested, please send the following information to thanks@theridgeseniorliving.com

Name

Shipping Address

Email Address

Community you work or have a family member living at.

Number of Units

The costs are as follows:

\$478 per unit

Tax \$35.85

Shipping (UT only) \$18.00

Total Costs \$531.85 each

Once the orders are placed, we will send an invoice and ask that a check be sent to Ridge Pinehurst where they will be shipped.

We are also including the installation video link so you can understand the scope of work needed to put them into your homes.
